Author Index

Bunderson, W.T., *see* Saka, A.R. et al.
Busing, R.T. and Pauley, E.F.
Mortality trends in a southern Appalachian red spruce population 41
Campbell, B., *see* Nyathi, P. et al.
Chevrier, N., *see* Truax, B. et al.
Chirwa, P.W., Nair, P.K.N. and Kamara, C.S.
Soil moisture changes and maize productivity under alley cropping with *Leucaena* and *Flemingia* hedgerows at Chalimbana near Lusaka, Zambia 231
Coe, R., *see* Kwesiga, F. et al.
Duguma, B. and Tonye, J.
Screening of multipurpose tree and shrub species for agroforestry in the humid lowlands of Cameroon..... 135
Gagnon, D., *see* Truax, B. et al.
Gijsbers, H.J.M., Kessler, J.J. and Knevel, M.K.
Dynamics and natural regeneration of woody species in farmed parklands in the Sahel region (Province of Passore, Burkina Faso) 1
Gwaze, D.P., *see* Wanyancha, J.M. et al.
Hoekstra, D.A.
Factors influencing the economic viability of three agroforestry systems in Eastern and Southern Africa..... 265
Högberg, P., *see* Jones, H.E. et al.
Itimu, O.A., *see* Saka, A.R. et al.
Jones, H.E., Högberg, P. and Ohlsson, H.
Nutritional assessment of a forest fertilisation experiment in northern Sweden by root bioassays..... 59
Kamara, C.S., *see* Chirwa, P.W. et al.
Kamara, C.S., *see* Mwiinga, R.D. et al.
Kamara, C.S. and Maghembe, J.A.
Performance of multipurpose tree and shrub species 28 months after planting at Chalimbana, Zambia 145
Karachi, M., Lema, N., Sabas, E. and Shirima, D.
Growth, biomass production and plant mortality of seven *Sesbania sesban* var. *nubica* and three *Sesbania macrantha* accessions at Tumbi, Tanzania..... 153
Kessler, J.J., *see* Gijsbers, H.J.M. et al.
Knevel, M.K., *see* Gijsbers, H.J.M. et al.
Kwesiga, F.
Performance of fifteen provenances of *Gliricidia sepium* in eastern Zambia 161
Kwesiga, F. and Coe, R.
The effect of short rotation *Sesbania sesban* planted fallows on maize yield..... 199
Kwesiga, F.R., *see* Mwiinga, R.D. et al.
Laswai, G.D., *see* Mtenga, L.A. et al.
Lema, N., *see* Karachi, M. et al.
Maghembe, J.A., *see* Kamara, C.S. et al.
Maghembe, J.A., *see* Okorio, J. et al.
Maghembe, J.A., *see* Prins, H. et al.
Maghembe, J.A. and Prins, H.
Performance of multipurpose trees for agroforestry two years after planting at Makoka, Malawi 171
Masamba, C.
Presowing seed treatments on four African *Acacia* species: appropriate technology for use in forestry for rural development 105
Mbekeani, Y., *see* Saka, A.R. et al.
Mchowa, J.W. and Ngugi, D.N.
Pest complex in agroforestry systems: the Malawi experience..... 277
Mills, W.R., *see* Wanyancha, J.M. et al.
Monk, R., *see* Murray, F. et al.
Msonthi, J.D., *see* Saka, J.D.K. et al.
Mtenga, L.A. and Laswai, G.D.
Leucaena leucocephala as feed for rabbits and pigs: detailed chemical composition and effect of level of inclusion on performance 249
Murray, F., Monk, R. and Walker, C.D.
The responses of shoot growth of *Eucalyptus* species to concentration and frequency of exposure to nitrogen oxides..... 83
Mwiinga, R.D., Kwesiga, F.R. and Kamara, C.S.
Decomposition of leaves of six multipurpose tree species in Chipata, Zambia..... 209
Nair, P.K.N., *see* Chirwa, P.W. et al.
Ngugi, D.N., *see* Mchowa, J.W. et al.
Ngulube, M.R.
Evaluation of *Gliricidia sepium* provenances for alley cropping in Malawi..... 191
Norby, R.J., *see* Van Miegroet, H. et al.
Nyathi, P. and Campbell, B.
Leaf quality of *Sesbania sesban*, *Leucaena leucocephala* and *Brachystegia spiciformis*: potential agroforestry species..... 259
Ohlsson, H., *see* Jones, H.E. et al.
Okorio, J. and Maghembe, J.A.
The growth and yield of *Acacia albida* intercropped with

maize (*Zea mays*) and beans (*Phaseolus vulgaris*) at Morogoro, Tanzania 183
Pauley, E.F., *see* Busing, R.T. et al.
Payandeh, B. and Wang, Y.
Modified site index equations for major Canadian timber species 97
Phombeya, H.S.K., *see* Saka, A.R. et al.
Power, J.D., *see* Stockdale, M.C. et al.
Prins, H., *see* Maghembe, J.A. et al.
Prins, H. and Maghembe, J.A.
Germination studies on seed of fruit trees indigenous to Malawi 111
Sabas, E., *see* Karachi, M. et al.
Saka, A.R., Bunderson, W.T., Itimu, O.A., Phombeya, H.S.K. and Mbekeani, Y.
The effects of *Acacia albida* on soils and maize grain yields under smallholder farm conditions in Malawi 217
Saka, J.D.K. and Msonthi, J.D.
Nutritional value of edible fruits of indigenous wild trees in Malawi 245
Shirima, D., *see* Karachi, M. et al.
Stockdale, M.C. and Power, J.D.
Estimating the length of rattan stems 47
Swank, W.T., *see* Vose, J.M. et al.
Tonye, J., *see* Duguma, B. et al.
Truax, B., Gagnon, D. and Chevrier, N.
Nitrate reductase activity in relation to growth and soil N forms in red oak and red ash planted in three different environments: forest, clear-cut and field 71
Tschaplinski, T.J., *see* Van Miegroet, H. et al.
Van Miegroet, H., Norby, R.J. and Tschaplinski, T.J.
Nitrogen fertilization strategies in a short-rotation sycamore plantation 13
Vose, J.M. and Swank, W.T.
Effects of long-term drought on the hydrology and growth of a white pine plantation in the southern Appalachians 25
Walker, C.D., *see* Murray, F. et al.
Wang, Y., *see* Payandeh, B. et al.
Wanyancha, J.M., Mills, W.R. and Gwaze, D.P.
Genetic variation in *Acacia albida (Faidherbia albida)* and its agroforestry potential in Zimbabwe 127

Forest Ecology and Management 64 (1994) 289–292

Forest Ecology and Management

Subject Index

Acacia albida
Genetic variation in *Acacia albida (Faidherbia albida)* and its agroforestry potential in Zimbabwe 127
The growth and yield of *Acacia albida* intercropped with maize (*Zea mays*) and beans (*Phaseolus vulgaris*) at Morogoro, Tanzania 183
The effects of *Acacia albida* on soils and maize grain yields under smallholder farm conditions in Malawi 217
Acacia spp.
Presowing seed treatments on four African *Acacia* species: appropriate technology for use in forestry for rural development 105
Agroforestry
Screening of multipurpose tree and shrub species for agroforestry in the humid lowlands of Cameroon..... 135
Performance of multipurpose tree and shrub species 28 months after planting at Chalimbana, Zambia 145
Agroforestry potential
Genetic variation in *Acacia albida (Faidherbia albida)* and its agroforestry potential in Zimbabwe 127
Agroforestry system
Factors influencing the economic viability of three agroforestry systems in Eastern and Southern Africa..... 265
Pest complex in agroforestry systems: the Malawi experience 277
Alley cropping
Evaluation of *Gliricidia sepium* provenances for alley cropping in Malawi 191
Soil moisture changes and maize productivity under alley cropping with *Leucaena* and *Flemingia* hedgerows at Chalimbana near Lusaka, Zambia 231
Beans
The growth and yield of *Acacia albida* intercropped with maize (*Zea mays*) and beans (*Phaseolus vulgaris*) at Morogoro, Tanzania 183
Biomass
Growth, biomass production and plant mortality of seven *Sesbania sesban* var. *nubica* and three *Sesbania macrantha* accessions at Tumbi, Tanzania..... 153
Performance of fifteen provenances of *Gliricidia sepium* in eastern Zambia 161
Performance of multipurpose trees for agroforestry two years after planting at Makoka, Malawi 171
Brachystegia spiciformis
Leaf quality of *Sesbania sesban, Leucaena leucocephala* and *Brachystegia spiciformis*: potential agroforestry species 259
Constrained model
Modified site index equations for major Canadian timber species 97
Decomposition
Decomposition of leaves of six multipurpose tree species in Chipata, Zambia 209
Drought
Effects of long-term drought on the hydrology and growth of a white pine plantation in the southern Appalachians 25
Economic viability
Factors influencing the economic viability of three agroforestry systems in Eastern and Southern Africa..... 265
Edible wild fruit
Nutritional value of edible fruits of indigenous wild trees in Malawi 245
Estimation
Estimating the length of rattan stems 47
Eucalyptus
The responses of shoot growth of *Eucalyptus* species to concentration and frequency of exposure to nitrogen oxides 83
Fallow
The effect of short rotation *Sesbania sesban* planted fallows on maize yield 199
Farmed parkland
Dynamics and natural regeneration of woody species in farmed parklands in the Sahel region (Province of Passore, Burkina Faso) 1
Feed
Leucaena leucocephala as feed for rabbits and pigs: detailed chemical composition and effect of level of inclusion on performance 249
Fertilization
Nitrogen fertilization strategies in a short-rotation sycamore plantation 13
Nutritional assessment of a forest fertilisation experiment in northern Sweden by root bioassays 59
Flemingia macrophylla
Soil moisture changes and maize productivity under alley cropping with *Leucaena* and *Flemingia* hedgerows at Chalimbana near Lusaka, Zambia 231

Genetic variation
Genetic variation in *Acacia albida (Faidherbia albida)* and its agroforestry potential in Zimbabwe 127
Germination
Presowing seed treatments on four African *Acacia* species: appropriate technology for use in forestry for rural development 105
Germination studies on seed of fruit trees indigenous to Malawi 111
Gliricidia sepium
Performance of fifteen provenances of *Gliricidia sepium* in eastern Zambia 161
Evaluation of *Gliricidia sepium* provenances for alley cropping in Malawi 191
Growth
Effects of long-term drought on the hydrology and growth of a white pine plantation in the southern Appalachians 25
Mortality trends in a southern Appalachian red spruce population 41
Nitrate reductase activity in relation to growth and soil N forms in red oak and red ash planted in three different environments: forest, clear-cut and field 71
Growth, biomass production and plant mortality of seven *Sesbania sesban* var. *nubica* and three *Sesbania macrantha* accessions at Tumbi, Tanzania 153
Performance of fifteen provenances of *Gliricidia sepium* in eastern Zambia 161
Performance of multipurpose trees for agroforestry two years after planting at Makoka, Malawi 171
The growth and yield of *Acacia albida* intercropped with maize (*Zea mays*) and beans (*Phaseolus vulgaris*) at Morogoro, Tanzania 183
Hedgerow intercropping
Factors influencing the economic viability of three agroforestry systems in Eastern and Southern Africa 265
Humid lowlands
Screening of multipurpose tree and shrub species for agroforestry in the humid lowlands of Cameroon 135
Hydrology
Effects of long-term drought on the hydrology and growth of a white pine plantation in the southern Appalachians 25
Indigenous fruit tree
Germination studies on seed of fruit trees indigenous to Malawi 111
Nutritional value of edible fruits of indigenous wild trees in Malawi 245
Intercropping
The growth and yield of *Acacia albida* intercropped with maize (*Zea mays*) and beans (*Phaseolus vulgaris*) at Morogoro, Tanzania 183
Leaf quality
Leaf quality of *Sesbania sesban*, *Leucaena leucocephala* and *Brachystegia spiciformis*: potential agroforestry species 259
Leucaena leucocephala
Soil moisture changes and maize productivity under alley cropping with *Leucaena* and *Flemingia* hedgerows at Chalimbana near Lusaka, Zambia 231
Leucaena leucocephala as feed for rabbits and pigs: detailed chemical composition and effect of level of inclusion on performance 249
Leaf quality of *Sesbania sesban*, *Leucaena leucocephala* and *Brachystegia spiciformis*: potential agroforestry species 259
Maize
The growth and yield of *Acacia albida* intercropped with maize (*Zea mays*) and beans (*Phaseolus vulgaris*) at Morogoro, Tanzania 183
The effect of short rotation *Sesbania sesban* planted fallows on maize yield 199
The effects of *Acacia albida* on soils and maize grain yields under smallholder farm conditions in Malawi 217
Soil moisture changes and maize productivity under alley cropping with *Leucaena* and *Flemingia* hedgerows at Chalimbana near Lusaka, Zambia 231
Mineralization
Decomposition of leaves of six multipurpose tree species in Chipata, Zambia 209
Mixed intercropping
Factors influencing the economic viability of three agroforestry systems in Eastern and Southern Africa 265
Mortality
Mortality trends in a southern Appalachian red spruce population 41
Growth, biomass production and plant mortality of seven *Sesbania sesban* var. *nubica* and three *Sesbania macrantha* accessions at Tumbi, Tanzania 153
Multipurpose tree species
Screening of multipurpose tree and shrub species for agroforestry in the humid lowlands of Cameroon 135
Performance of multipurpose tree and shrub species 28 months after planting at Chalimbana, Zambia 145
Growth, biomass production and plant mortality of seven *Sesbania sesban* var. *nubica* and three *Sesbania macrantha* accessions at Tumbi, Tanzania 153
Performance of multipurpose trees for agroforestry two years after planting at Makoka, Malawi 171
Decomposition of leaves of six multipurpose tree species in Chipata, Zambia 209
Pest complex in agroforestry systems: the Malawi experience 277
Nitrate reductase activity
Nitrate reductase activity in relation to growth and soil N forms in red oak and red ash planted in three different environments: forest, clear-cut and field 71
Nitrogen
Nitrogen fertilization strategies in a short-rotation sycamore plantation 13
Nitrate reductase activity in relation to growth and soil N forms in red oak and red ash planted in three different environments: forest, clear-cut and field 71
Nitrogen concentration

Decomposition of leaves of six multipurpose tree species in Chipata, Zambia 209
Nitrogen oxide
The responses of shoot growth of *Eucalyptus* species to concentration and frequency of exposure to nitrogen oxides 83
Numerical method
Modified site index equations for major Canadian timber species 97
Nutrient
Nutritional assessment of a forest fertilisation experiment in northern Sweden by root bioassays 59
Nutrient content
Leaf quality of *Sesbania sesban*, *Leucaena leucocephala* and *Brachystegia spiciformis*: potential agroforestry species 259
Nutrition
Nutritional value of edible fruits of indigenous wild trees in Malawi 245
Performance
Performance of multipurpose trees for agroforestry two years after planting at Makoka, Malawi 171
Pest
Pest complex in agroforestry systems: the Malawi experience 277
Picea
Mortality trends in a southern Appalachian red spruce population 41
Pig feed
Leucaena leucocephala as feed for rabbits and pigs: detailed chemical composition and effect of level of inclusion on performance 249
Pinus
Effects of long-term drought on the hydrology and growth of a white pine plantation in the southern Appalachians 25
Nutritional assessment of a forest fertilisation experiment in northern Sweden by root bioassays 59
Provenance trial
Genetic variation in *Acacia albida (Faidherbia albida)* and its agroforestry potential in Zimbabwe 127
Performance of fifteen provenances of *Gliricidia sepium* in eastern Zambia 161
Evaluation of *Gliricidia sepium* provenances for alley cropping in Malawi 191
Rabbit feed
Leucaena leucocephala as feed for rabbits and pigs: detailed chemical composition and effect of level of inclusion on performance 249
Rattan stem
Estimating the length of rattan stems 47
Regeneration
Dynamics and natural regeneration of woody species in farmed parklands in the Sahel region (Province of Passore, Burkina Faso) 1
Root bioassay
Nutritional assessment of a forest fertilisation experiment in northern Sweden by root bioassays 59
Rotation
Nitrogen fertilization strategies in a short-rotation sycamore plantation 13
The effect of short rotation *Sesbania sesban* planted fallows on maize yield 199
Screening
Screening of multipurpose tree and shrub species for agroforestry in the humid lowlands of Cameroon 135
Performance of multipurpose tree and shrub species 28 months after planting at Chalimbana, Zambia 145
Seed coat dormancy
Presowing seed treatments on four African *Acacia* species: appropriate technology for use in forestry for rural development 105
Seedling
Dynamics and natural regeneration of woody species in farmed parklands in the Sahel region (Province of Passore, Burkina Faso) 1
Seed treatment
Presowing seed treatments on four African *Acacia* species: appropriate technology for use in forestry for rural development 105
Germination studies on seed of fruit trees indigenous to Malawi 111
Sesbania sesban
The effect of short rotation *Sesbania sesban* planted fallows on maize yield 199
Leaf quality of *Sesbania sesban*, *Leucaena leucocephala* and *Brachystegia spiciformis*: potential agroforestry species 259
Sesbania spp.
Growth, biomass production and plant mortality of seven *Sesbania sesban* var. *nubica* and three *Sesbania macrantha* accessions at Tumbi, Tanzania 153
Shoot
Dynamics and natural regeneration of woody species in farmed parklands in the Sahel region (Province of Passore, Burkina Faso) 1
Shoot growth
The responses of shoot growth of *Eucalyptus* species to concentration and frequency of exposure to nitrogen oxides 83
Smallholder crop production
The effects of *Acacia albida* on soils and maize grain yields under smallholder farm conditions in Malawi 217
Soil
Nitrate reductase activity in relation to growth and soil N forms in red oak and red ash planted in three different environments: forest, clear-cut and field 71
The effects of *Acacia albida* on soils and maize grain yields under smallholder farm conditions in Malawi 217
Soil moisture
Soil moisture changes and maize productivity under alley cropping with *Leucaena* and *Flemingia* hedgerows at Chalimbana near Lusaka, Zambia 231

Stem length
Estimating the length of rattan stems 47
Sycamore
Nitrogen fertilization strategies in a short-rotation sycamore plantation 13
Taungya system
Factors influencing the economic viability of three agroforestry systems in Eastern and Southern Africa..... 265
Weibull function
Modified site index equations for major Canadian timber species 97
Wind
Mortality trends in a southern Appalachian red spruce population..... 41
Woody plant regeneration
Dynamics and natural regeneration of woody species in farmed parklands in the Sahel region (Province of Passore, Burkina Faso) 1
Yield
The growth and yield of *Acacia albida* intercropped with maize (*Zea mays*) and beans (*Phaseolus vulgaris*) at Morogoro, Tanzania 183
The effect of short rotation *Sesbania sesban* planted fallows on maize yield..... 199
The effects of *Acacia albida* on soils and maize grain yields under smallholder farm conditions in Malawi..... 217
